

Getting The Most From Your Transportation Provider

By: Cary & Trisha Gertie

Choice Limousine Service, Colorado

(303) 646-1433

So you are considering booking a limousine to transport you and your new spouse from the church to the picture location and then on to the reception. Why stop there? With so much on a bride's mind during the hustle and bustle of the wedding day, why not consider booking a limousine for the full day to take care of all your transportation needs.

From the time you wake up on your wedding day, there are a million things to do. From hair appointments, spa appointments, photos, last minute errands, getting dressed, and going to the church to the "I Do's" and all the after party events. What if on your wedding morning, a stretch limousine pulled up to your house or hotel to take you to the spa for your manicure and pedicure. Upon leaving the spa, you return to the limo to relax as you drive to your hair salon for your wedding hairstyle. Then the limo takes you back to your home, hotel or wedding venue to get dressed and picture ready. On to pictures where your driver can pick up additional family members for pre-wedding photos. Now on to the wedding venue. Since you, the Bride, will want to arrive early to insure that everything is perfect, perhaps you can send your limo to pick up the groom and his groomsmen. Skip ahead an hour or so and you and your husband can now be whisked away for photos and then on to the reception. The possibilities are endless when you have your own personal limousine and chauffeur for the most important day of your life.

Want to include your bridesmaids in all the pre-wedding fun? That's up to you, you have a 14 passenger stretch limousine to use at your discretion.

Concerned about the cost? When you take into account the added value, the cost suddenly seems justified. Whereas a limousine for one hour will cost roughly \$200.00*, a full day (8 hours) will only cost around \$650.00*. Not only are you getting a cost effective solution to the day's transportation, you've alleviated some of the possible headaches of your day. Now you can focus on enjoying your day not how to get to there.

**Depending on the size of the limousine.*
