Why should guys get to have all the fun? Planning a Bachelorette Party to have one last night out is just as important for the ladies as it is for the men. Whether you are looking to plan a wild night out on the town or a mellow evening with friends, using a limousine as your primary transportation will heighten your enjoyment of the evening.

By using a limousine, you won't have to think about:

- Drinking and driving (nobody has to be the designated driver)
- Parking and fuel
- Where to meet (a limo can pick you up from several locations until your group is assembled)
- Multiple cars and drivers to transport you and your friends

Perhaps you are having difficulty thinking of where you want to go for the evening. Well, first you have to consider what type of bachelorette party you want to have.

If you want a WILD Bachelorette Party, consider the following destinations during your evening:

- PT's Show Club (for some male stripping)
- Coyote Ugly Saloon (for some drinks and dancing on the bar)
- The Crypt (check their website for upcoming workshops or just stop in to do some shopping)

If you want a MELLOW Bachelorette Party, consider the following destinations during your evening:

- A spa for manicures & pedicures
- Sing Sing
- Vines Wine Bar & Tapas
- Landmark Theatre VIP Style (for drinks & a chic flick)
